

TOPAZ

ECO-AL GREEN

Alcohol Replacement

Description:

An alcohol replacer for use on sheetfed continuous type dampening systems. It contains solvents for reducing the surface tension of the press ready solution. Compatible with all fountain solutions and additives. Used correctly, ECO-AL GREEN can reduce or completely eliminate the use of alcohol.

Instructions: Mix 2.0 TO 3.0% of ECO-AL GREEN into the press ready mix. To decrease water setting or reduce lead edge toning, increase dosage by 10 m/L. If ink emulsification or roller stripping occurs decrease dosage by 10 m/L. For excellent results, use with TOPAZ-RBP fountain concentrates.

Contact an our technical representative for recommendations.

Benefits:

- Reduces surface tension of press solutions for better ink/water balance
- Safe, high flash point - no need to use red safety container
- Concentrated formula is more economical than using alcohol
- Achieves same density with less ink

Specifications:

Appearance / Odor : Colorless to slightly yellow liquid with ether odor

VOC Content : 903 g/L

Flash Point (TCC) : 62°C
