## UNITROL® 2500-I

One Step Wide Format Sheetfed Fountain Concentrate

### Description:

A one-step acidic fountain concentrate for all types of sheetfed presses. *UNITROL 2500-I* contains additives to help control and maintain water settings for excellent print contrast and ink densities. This new one step concentrate was specifically designed to replace alcohol or alcohol replacers. This product also contains wetting components that help control ink build up in the dampening system.

### Directions for Use:

Mix 6 oz/gallon of *UNITROL 2500-I* to each gallon of water. Increase dosage if plate sensitivity is occurring and decrease dosage if ink emulsification is a problem. Each oz/gallon of *UNITROL 2500-I* will increase conductivity by 350 micromhos/cm.

### Specifications:

Appearance	: Clear blue liquid
Density	: 8.6 lbs/gal
Conductivity	: 350 micromhos/cm per ounce
pH, diluted	: 4 - 5
