WEB FOUNT 176

2% Mild Acid Fountain Concentrate for Brush & Spray Dampening

Description:

A mild acid fountain solution for use in the coldset application. *WEB FOUNT 176* is designed to be used on presses equipped with brush and spray dampening systems. This product allows for more stable ink and water settings, excellent desensitizing of the non-image area, and additives that fight blanket buildup. *WEB FOUNT 176* is specifically designed to produce cleaner sharper print quality with fewer toning and emulsification issues, while maintaining low water settings. This fountain concentrate contains a unique blend of components to fight ink build up and feedback issues.

Directions for Use:

Mix 2% or 20 ml of *WEB FOUNT 176* to each liter of water. Increase dosage if plate sensitivity is occurring. Decrease dosage if ink emulsification or roller stripping is a problem. The conductivity will increase by 680 micromhos/cm over the water's conductivity for each 1% of added *WEB FOUNT 176*.

Specifications:

Appearance	: Pale Yellow
Density	: 1.08 Kg/L
Conductivity	: 680 micromhos/cm per 1 %
pH, diluted	: 4.5-5.2
